

Conference name: Quantum Technology International Conference 2018
QTech 2018
Venue: École Normale Supérieure Ulm, 29 Rue d'Ulm, 75005 Paris
Dates: 5-7th September 2018

Group Picture:

Chairman:

- Prof. Antoine Heidmann
Kastler Brossel Laboratory, France

Vice Chairman:

- Prof. Nicolas Treps
Kastler Brossel Laboratory, France

Reviewers Committee:

David Elkouss, Netherlands
Keisuke Fujii, Japan
Eran Ginossar, United Kingdom
Michael Bremner, Australia
André Xuereb, Malta
Wilhelm Kaenders, Germany
Yasser Omar, Portugal
Cosmo Lupo, United Kingdom
Alexandru Aldea, Romania
Ilja Gerhardt, Germany
Vicente Martin, Spain
Jonatan Bohr Brask, Denmark

Tomoyuki Morimae, Japan
Giordano Scappucci, Netherlands
Seref Kalem, Turkey
Valentina Parigi, France
Tracy E. Northup, Austria
Sokratis Kalliakos, United Kingdom
Loïc Lanco, France
Mika Prunnila, Finland
Davide Girolami, USA
Jeremie Roland, Belgium
Michel Planat, France
Rahul Jain, Singapore
Emanuele Uccelli, Netherlands
Enrico Prati, Italy
Christophe Couteau, France
Kasper Jensen, Denmark
Jiri Vala, Ireland
Ulrich Schneider, Germany
Friedemann Reinhard, Germany
Dmitri Mogilevtsev, Belarus
Olivier Pfister, USA
Gabor Vattay, Hungary
Koen Bertels, Netherlands
Tristan Aurellien Yan Meunier, France
Miklos Santha, Singapore
Maria Luisa Rastello, Italy
Hervé Courtois, France
Luca Pezze', Italy
Yeong-Cherng Liang, Taiwan
Paul Antoine Hervieux, France
Anthony Leverrier, France
Alessandro Zavatta, Italy
Roberta Zambrini, Spain
Simon Groeblacher, Netherlands
Tamas Vertesi, Hungary
Patrick Maletinsky, Switzerland
Giuseppe Vallone, Italy
Blaise Jeanneret, Switzerland
Alberto Politi, United Kingdom
Ivo Pietro Degiovanni, Italy
Paolo Facchi, Italy
Vadim V. Makarov, Canada
Michael Hush, Australia
Man-Hong Yung, China

Preface

The objectives of the QTech conference is to present the latest developments of quantum technologies in the domains of quantum communication, computation, simulation, sensors and metrology, and their implementation using various platforms from atoms and ions to solid states, superconducting circuits and optics. This conference will be the opportunity to gather researchers from different subfields and have a global overview of the latest progress.
